

Today, more and more people are taking care of their health and choosing an active lifestyle. Many people go to gyms, play various sports and watch their diet. Some also resort to taking vitamins and supplements to strengthen their immune system. However, even with such self-care, we are susceptible to various diseases - from colds to serious heart problems and cancer. All this makes us think about the causes of diseases.

Modern research indicates that hidden parasitic infections may be the main cause of many diseases. Therefore, before strengthening the immune system and restoring the body, it is important to get rid of parasites. This book will tell you about the danger that parasites pose to our body, and will also offer a new method of cleansing the body using the anti-parasitic device "Volcano Zapper".

Parasites in the human body that cause diseases

We all live in the era of technological progress of the 21st century, and we are all exposed to the negative effects of the environment. Unfavorable environmental conditions, radiation from widespread phones, computers and other equipment, high levels of stress, poor diet, constant fatigue and other factors significantly weaken our immunity. It is a weakened body that becomes vulnerable to infectious and parasitic agents.

When we get sick, we usually first try to cope with the illness on our own by taking our usual medications. If this does not help, then we go to a doctor who prescribes us medications. Symptoms may improve, but often the disease returns. Many people suffer from frequent acute respiratory infections, undergo several courses of traditional therapy and begin to get used to this lifestyle.

**I WISH THAT ALL MEDICAL SCIENCE USED TODAY WOULD
FELL ON THE SEA BOTTOM!**

Oliver Wendell Holmes

There are thousands of diseases and diagnoses, but there are only two reasons!!!

Parasites and pollution!!!

Modern medicine makes diagnoses and “treats symptoms.”

The real cure is to “remove the cause”!

So, the obvious way to solve the problem and restore health:

ELIMINATING OR “TREATING THE CAUSE”!

Parasites in our body or a way out of the vicious circle?

Along with the beneficial microflora, unwanted “guests” appear in our body - viruses, bacteria, parasites!

They are man's worst enemies!!!

Each of them has its own vibration frequency, the so-called bioresonance or bioresonance therapy.

The presence of unwanted “guests” causes numerous and varied health problems!

According to the World Health Organization, 90-95% of the world's population is infected with parasites. Chronic diseases in 100% of cases are caused or accompanied by parasitic infections. The statistics and facts are truly terrifying!

Parasitic diseases cause mental retardation and

physical development of children, reduce the working capacity of the adult population. By causing allergization of the body of the affected person, they reduce its resistance to infectious and somatic diseases and reduce the effectiveness of vaccine prevention.

A person can try to boost their immunity for a long time by taking

expensive drugs to reduce frequent acute respiratory infections, to be treated for years for any serious disease, and the cause of his ailments will most likely be parasites that have settled in the body and cause so much trouble.

Chronic diseases are caused in 100% of cases by or at least

are accompanied by parasitic infections, including 60% of cases caused by exposure to helminths. More than 25% of the population is infected with fungi.

Horrifying statistics? Don't want to believe? It is difficult to agree that in

Can disgusting parasites live in your body?

Then let's look at one more statistic: 90% of all corpses examined by pathologists contain large worms. And all cancer patients are full of them. The founder of parasitology in Russia, academician K.I. Scriabin noted the following: neither economic prosperity, nor prosperity, nor the implementation of mass health measures will give effective results if people continue to be “UNKNOWN”!

Is it hard to believe that there are terrible parasites living inside your body?

Dr. Royal Rife and Dr. Hulda Clark are perhaps the most popular scientists and researchers in the field of parasites. They firmly believe that all diseases such as “incurable and chronic diseases” and many others.

The above list goes on and on, 100% caused by parasites!!!

Fasciolopsis-buskii

trichinella_spiralis

Ancylostoma

The most common symptoms of the presence of parasites in the human body:

Gastrointestinal syndrome - inflammation of the intestinal walls, which entails decreased absorption of vital nutrients.

Constipation caused by mechanical blockage of common bile and intestinal ways of helminths.

Diarrhea caused by the production of prostaglandins by parasites (substances leading to loss of sodium and chlorides, which in turn leads to frequent watery stools).

Abdominal bloating and gases caused by inflammation due to presence of parasites in the body.

Anemia - occurs when worms stick to the mucous membrane intestines, suck nutrients from the host, and in some cases they even cause blood loss, which leads to iron deficiency.

Allergies can also be a consequence of infection with parasites. Products of vital activity of helminths enter the intestinal lumen and are absorbed into

blood. This activates the body's immune response in the form of production increased doses of eosinophils (a type of defense cell in the body), which causes allergic reaction.

The appearance of granulomas - tumor-like masses enveloping destroyed parasite eggs. Most often they form on the walls of the thick and rectum, as well as in the lungs, liver, abdominal cavity, and uterus.

Pain in joints and muscles that occurs due to injury and inflammation tissues in cases where parasites move throughout the body and colonize the most convenient places for their life, for example, joint fluid and muscles.

Weakening of the immune system due to the presence of parasites in the body constantly stimulates the system's reaction and over time weakens this protective mechanism.

Nervousness and anxiety are often symptoms of helminthic infestation. Occur due to irritation of the central nervous system by waste metabolism of parasites.

Chronic fatigue, characterized by weakness, rapid fatigue, flu-like state, apathy, decreased concentration attention and memory. These symptoms are associated with nutritional deficiencies substances in the body, poor absorption of proteins, carbons, fats and especially vitamins A and B12.

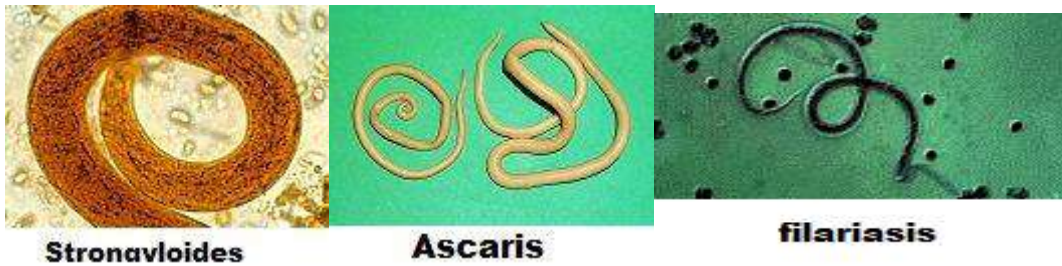

Sleep disturbance caused by pain and itching, as well as grinding of teeth in sleep, which is a response of the nervous system to a foreign stimulus. Frequent awakening at night, especially between 1 and 5 o'clock may be caused by the body's attempt to get rid of toxic substances released parasites in the liver. Sleep disturbances can also be caused by the release of certain parasites at night, accompanied by unpleasant itching in the anal area. One of the main causes of hemorrhoids is the development of parasites in the rectal mucosa.

Among the signs of the presence of parasites in the body you can also add: early baldness, papillomas, dermatitis, early facial wrinkles, cracks in heels, acne, pimples, rashes and other allergic skin reactions.

Weight gain or loss, excessive hunger, bad taste in mouth, smell of

mouth, migraines and other symptoms - all this indicates vital activity

helminths.

OPENING OF DOCTOR RIFE!!!

HIDDEN SECRET TRUTH!!!

Who is Dr. Royal Raymond Rife?

The Zapper method, or also called resonance-frequency bioresonance therapy, was first discovered by Dr. Royal Raymond Rife back in the 30s of the 20th century.

EVERYTHING HAS ITS UNIQUE VIBRATION FREQUENCY!!!

Pathogenic microorganisms can be destroyed using radio frequency electrical signals. Exposing parasites to electrical signals/impulses for several minutes.... Leads to the cessation of their radiation. Parasites are dead or permanently damaged and are eliminated by the body using white blood cells.

The solution to numerous “incurable and chronic” health problems is not a chimera, as Dr. Royal Raymond Rife proved back in the 30s of the 20th century. In 1920, a young American scientist discovered the “incurable/chronic disease” virus, isolated it and injected it into 400 rats. All experimental animals were infected and then cured. Rife showed that any bacterial or viral disease can be defeated if it is affected with a certain frequency. Everything has its own unique vibration frequency.

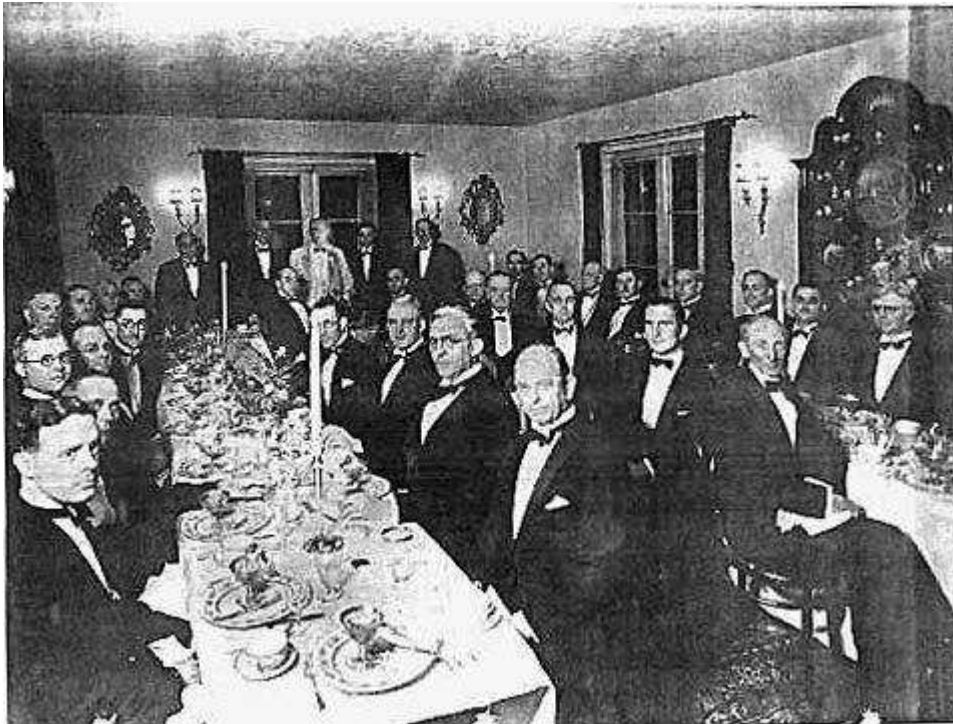

Doctor Royal Raymond Rife, Dr. Rife's Universal Microscope

It is well known that bacteria, viruses and parasites have their own oscillation frequency. If we knew this, a particular pathogen could be destroyed by irradiating it at that frequency. The membrane walls are destroyed, and the pathogen quickly dies, Rife explained. Those any disease caused by a pathogen - a bacterium or a virus - can be cured by destroying it and making the body healthy again. The advantage of the Rife treatment is that it does not affect any healthy human cells because they resonate at different frequencies. Rife's list contains more than 500 diseases that can be overcome.

Party "The End of All Diseases"

Thanks to his inventions, Rife is respected by his colleagues. 11/20/1931 44 of the country's most respected doctors held an evening in his honor under the slogan "The End of All Diseases."

Dr. Rife's scientific theories and treatments caused him problems with public opinion. Until 1939, almost all of these eminent doctors and researchers denied ever having met Rife. On the eve of the conference at which the results of Dr. Rife's research work were to be announced, one of his sponsors, namely Milbank Johnson, the former president of the Southern California Medical Association, was fatally poisoned, and the documents disappeared without a trace.

Dr. Rife had to suspend his practice because the American Medical Association brought legal proceedings against him and his treatments. Having become acquainted with his achievements, the head of the American Medical Association, at that time Maurice Fishbein, offered to buy his invention patent for a period of 8 years.

After his refusal, Fishbein decided to sue Rife. During the proceedings, representatives of the Association visited Rife employees. Those who did not agree to abandon his methods and devices lost their medical licenses. Not a single medical journalist agreed to publish his work. The only publication that was censored was that of the Franklin Institute. While Rife was testifying, his laboratories were set on fire.

Dr. Nemes, who had copies of some of Rife's works, died in a mysterious fire. This destroyed all his research work. The same fate befell Burnett's laboratory, which legalized Rife's research. In 1946, Raymond Rife was forced to sell off what was left of his San Diego laboratory. Royal Rife was killed in 1971 due to an "accidental" fatal dose of alcohol at Grossmont Hospital.

For one reason or another, Dr. Rife's discovery remained forgotten until Dr. Hulda Clark from the USA published her scientific works in the book "Cure for All Diseases," based on Rife's theories.

Who is Dr. Hulda Clark?

Dr. Clark was born on October 18, 1928 in Rosthern, Canada. She began her studies in biological sciences at the University of Saskatchewan, where she spent 19 years studying and received a Master's degree (Honours). In 1958, the University of Minnesota awarded her a PhD in applications of physics and its influence on the biological structures of cells.

Dr. Clark founded a national consulting agency for some of the techniques and developments being studied at Indiana University (including Zapper technology). At the very beginning, it enjoyed enormous support from federal agencies and US subsidies for its developments, but under pressure

pharmaceutical companies that provided subsidies in 1974 were eliminated. She narrowed the scope of her developments and projects, but continued to work on her own.

The result of Dr. Clark's research work was the study of the correlation between microorganisms (such as parasites, bacteria, viruses) and their response to heavy metals and certain frequencies of electrical impulses (we currently call this the Zapper).

Dr. Hulda Clark has written 7 books namely, A Cure for All Cancers, A Cure for All Diseases, A Cure for HIV and AIDS, A Cure for All Advanced Cancers, Preventing All Cancers, A Guide for the Syncrometer Science Laboratory" and the recent 2008 edition of "Treatment and Prevention of All Cancers" which focuses on some pretty tough diseases and how her technology can help them! Her books contain very important information for the attention of those interested in the modern natural way of life.

Dr. Clarke has been subjected to numerous attacks by "PHARMACEUTICAL COMPANIES" - refusing to sell the patent on her technology or cooperate with them. Because she wanted to make technology and learning accessible to everyone without making it too expensive.

The zapper is Dr. Clark's most important invention. This is a small device that uses pulses at a frequency of 30 kHz, almost imperceptible to the human ear, but lethal to parasites, bacteria and viruses.

Zapper-S5 AUTOMATIC

Zapper-S5 AUTOMATIC according to Dr. Clark's scheme is a simple electrical device that kills pathogenic bacteria, viruses and parasites through electromagnetic fields based on the principle of bioresonance. The impact of the device on parasites in a few minutes... Leads to the cessation of their radiation. Parasites are dead or permanently damaged and are eliminated by the body using white blood cells.

Zapper-S5 AUTOMATIC is absolutely safe and harmless to human health.

Keep in mind that it runs on a "9V battery"!

The frequencies of parasites are different from the frequencies of human organs. It is for this reason that the Zapper-V2 AUTOMATIC is the safest, most versatile and effective device that can be used effectively for all "incurable/chronic" diseases. Because its frequency and mode of action kills and destroys only parasites without affecting or damaging human organs in any way.

Help, prevention for:

- Diseases caused by unicellular organisms;
- helminthic infestations (pinworms, roundworms, flukes, sucking worms, etc.);
- Diseases caused by skin parasites (scabies, lice);
- Viral and mucous diseases (flu, food poisoning);
- Fungal infections (nail fungus, candidiasis, lichen, warts, etc.)
- Diseases of the intestinal system (ulcers, gastritis, hepatitis, etc.);
- Diseases of the excretory and reproductive system (cystitis, pyelonephritis, prostatitis, etc.);
- Pain syndromes (headache and migraine, toothache, pain in the neck, back, joints, etc.);
- Skin diseases (psoriasis, dermatitis, ulcers, acne, etc.);
- Diseases of the endocrine system (thyroid gland, diabetes, etc.);
- Diseases of the musculoskeletal system (arthrosis, arthritis, myositis, etc.);
- Diseases of the nervous system (insomnia, nervousness, depression, rage, etc.):
- Diseases of the circulatory system;
- Purulent wounds;
- Chronic fatigue syndrome; Overweight;
- Vaginal infections; cystitis, cysts, fibroids.)
- Postoperative treatment and recovery
- Autoimmune diseases, alopecia;
- Chronic diseases in 100% of cases are caused or accompanied by parasitic infections, and in 60% of cases – by helminths (parasitic worms);
- Currently, more than 25% of the world's population is infected with fungal infections; according to WHO, almost 75% of the world's population is infected with parasitic diseases, regardless of the level of social life; 80% of all existing diseases are either directly related to parasites or are the result of their activity in the human body.

Zapper-V2 AUTOMATIC

Zapper-V2 AUTOMATIC

- Biowave generator Zapper-V2 AUTOMATIC is a digital electronic device that kills pathogenic parasites, bacteria, viruses and fungi using electromagnetic waves based on the principle of bioresonance without the use of any medications.

Zapper allows you to effectively treat acute and chronic diseases, the etiology and pathogenesis of which are significantly influenced by parasitic, bacterial and viral infections. The theory of selective electrical destruction of pathogens was developed by the American Dr. Rife, developed at the end of the 20th century by Dr. Hulda Clark and then confirmed by dozens of researchers around the world.

The device can be used individually at home, as well as in physiotherapy rooms in hospitals. During a therapy session, the patient is connected to the Zapper through a pair of electrodes, which can contact both arms or both legs, as well as connect diagonally between the right arm and left leg, or the left arm and right leg!

How many procedures should be performed daily and for what period?

From 1 to 3 procedures are carried out daily, for a total of 15-30 days. This is followed by a pause and, if necessary, the procedures are repeated until the symptoms disappear.

If the device is used prophylactically, 1-2 sessions per week will be required.

It is better if the whole family (including children) uses the car.

Why do we need a longer treatment period?

The bioresonance device Zapper-S5 AUTOMATIC destroys all types of parasites in one procedure.

But Candida fungi (an unwanted guest that is in every body)!!!

The greatest enemy of humanity along with parasites.

It lives intracellularly in our cells (on numerous layers) and takes longer to break down!

Therefore, for complete destruction/elimination we need a 15-30 day treatment period!

It has been proven that in addition to various types of health problems... Candida albicans, no less than parasites, is the main cause of cysts, tumors and cancer!!!

fungal microorganisms albicans.

Zapper-S5 AUTOMATIC has three working cycles lasting 61 minutes. It is divided into two pauses of 20 minutes each. Session 7 minutes – pause 20 minutes – session 7 minutes – pause 20 minutes – session 7 minutes. The device automatically proceeds to each subsequent cycle (session), sounding a signal and indicating with its indicators when to pick it up again. After the end of each session, the device beeps and automatically pauses. The indicator stops for 20 minutes. During a pause, you should leave the device away.

When it is time for the next cycle, it will beep again and the indicator will move to the next cycle. The Zapper -S5 AUTOMATIC will not start the next cycle until you catch it again. During the 7-minute sessions, if you need to let go, it will automatically stop and pick up where you left off. It will alert you with beeps throughout the session and automatically turn itself off.

Why do you need to go through three cycles, namely 1.2.3. (full session) ?

The first cycle kills viruses, bacteria and parasites, and after a few minutes new bacteria and viruses appear, leaving behind dead parasites.

The second cycle kills these viruses and bacteria. Soon several viruses appear.

The third cycle kills viruses that are the most difficult to destroy.

Why is the virus inside the parasite not destroyed when it is first removed? Electricity passes along the external contours of objects, and the parasite's body acts as a protective shield for viruses. This is why a single interruption (cycle) leads to partial or temporary improvement and is often accompanied by the appearance of symptoms of the disease.

Pauses are necessary to achieve a complete modification of the state of pathogens throughout the body, contributing to their complete destruction. Dr. Clark began studying a method of influence that she called “plugging.” Her scientific work showed that most diseases (much more than generally accepted indicators) are caused by helminths and pathogenic microflora, and her discovery marked the beginning of the creation of devices that allow the destruction of parasites. This direction is called “Active bioresonance therapy”. No disease is invincible thanks to our new understanding, experience and experimental results.

Just like Dr. Hulda Clark talks about the Zapper she developed at the same 30kHz frequency and with a 9V battery?

Early in her training, Dr. Clark operated with a variety of frequencies. That's what she will say later!!!

Subsequent studies showed that the constant frequencies destroyed all the invaders. The efficiency was due to the positive frequency setting and the fact that the Zapper runs on BATTERY!!! My guess is that positive electricity was applied wherever there is a body, it

attracts negatively charged objects such as parasites, viruses and bacteria. Probably, the voltage of the batteries compresses them and pulls them out of place.

The ability to destroy all invaders using Zapping/Zapper (in just 7 minutes) can turn into a panacea! You don't have to set specific frequencies and follow the sequence, going through all the frequencies, kilohertz by kilohertz.

With sufficient voltage (5-10 volts) (7 minutes duration) and frequency (10 to 30 kHz), each positively tuned frequency kills all parasites, bacteria and viruses simultaneously.

All parasites, viruses and bacteria (they die in 7 minutes, at 5 volts). Generating positive frequencies is the best and fastest way to destroy pathogenic organisms.

An excerpt from Dr. Hulda Clarke's book is below.

Why has the Zapper-S5 AUTOMATIC been working according to Dr. Clark's scheme for over 18 years?

With a single universal frequency of 30 kHz and a 9 V battery?

In addition to taking into account the research work, evidence and logic of Dr. Hulda Clarke.

Last but not least, we have tons of personal experience!!!

No matter what health problem you are experiencing, you cannot detect the parasite living in your body in order to destroy it with a certain frequency. For the simple reason that even today in modern medicine there are no studies to determine the presence of a particular parasite, virus or bacteria.

What is the reason for the lack of such research works? Every person with an average level of intelligence can answer this question!

Even if we find out through some research (which is almost impossible) a specific parasite, we have a high chance of "missing someone else." When using different programs and frequencies, you are missing some undetected parasite, virus or bacteria. When we work with different frequencies or programs on a particular parasite, we destroy that particular parasite, but what happens to other parasites, viruses and bacteria that have not been detected and diagnosed?

Needless to say, 99/9% of all diagnoses are WRONG!!! Perhaps unknowingly, Dr. Hulda Clark has provided yet another HUGE service to society. She created the Zapper, which has proven its ability to destroy all types of parasites, viruses and bacteria. Any person who

does not have knowledge in this area can work with it. And without having to look for a specific parasite and the frequency of its destruction!!!

Let's repeat what Dr. Clark said again!

Subsequent studies showed that the constant frequencies destroyed all the invaders. The efficiency was due to the positive frequency setting and the fact that the Zapper runs on BATTERY!!!

With sufficient voltage (5-10 volts) (7 minutes duration) and frequency (which varies from 10 to 30 kHz), each positively tuned frequency kills all parasites, bacteria and viruses at the same time.

All parasites, viruses and bacteria (they die in 7 minutes, at 5 volts). Generating positive frequencies is the best and fastest way to destroy pathogenic organisms.

In addition to working according to the scheme provided by Dr. Clark, Zapper-V2 AUTOMATIC affects and destroys all types of parasites, viruses and bacteria. Strengthens the entire body and has a stimulating effect on the immune system. Thus, it becomes more resistant to future attacks by parasites. Significantly increases vitality, improves memory and brain activity. Another positive effect provided by the device is the acceleration of metabolism at the cellular level (metabolism), which helps reduce the incidence of obesity and overweight in patients.

ZAPPER VOLCANO 4

The device is a Zapper of the latest generation, taking into account all the accumulated world achievements to date and has no analogues in its technical part. It is easy to work with; no additional programs, computer settings or special technical support are required. Can work without a memory card (using the familiar Clark protocol), or with memory cards programmed for different frequencies according to Dr. Rife, Hulda Clark and the Consolidated Annotated Data List (CAFL), the Frex 16 program and other sources for stuttering. . Choosing a memory map allows you to influence specific problems and find targeted solutions in different cases.

Biowave generators VOLCANO Zapper V-4 are digital electronic devices that act on pathogenic parasites, bacteria, viruses and fungi through electromagnetic waves based on the principle of bioresonance, without the use of drugs. Their action is based on the theory of selective destruction of pathogens by electric current, developed by the American physician Dr. Rife and developed in the late 20th century by Dr. Hulda Clark and confirmed by dozens of researchers around the world. After extensive research, Dr. Rife discovered that the human body contains many types of pathogens that are the cause of most diseases. Dr. Rife confirms Tesla's discovery that every organism has its own resonant frequency and that if it is exposed to external signals of the same frequency, it goes into resonance and dies.

Do you know that:

- Chronic diseases in 100% of cases are caused or accompanied by parasitic infections, and in 60% of cases – by helminths (parasitic worms);
- Today, more than 25% of the world's population is infected with fungal infections; According to WHO, almost 75% of the world's population is infected with parasitic diseases, regardless of their level of social life;
- 80% of all existing diseases are either directly related to parasites or are a consequence of their vital activity in the human body;
- Hundreds of millions of people around the world are infected with respiratory viruses every year;

Volcano Zapper V-4 Memory Cards

- K1 – Parasites, code 208001.
- K2 – Nervous system, Code 208002.
- K3 – Endocrine system, code 208003
- K4 – Digestive system, code 208004.
- K5 – Respiratory system, code 208005
- K6 – Blood system, code 208006
- K7 – Lymphatic system; Code 208007
- K8 – Skeletal system; Code 208008
- K9 – Muscular system; Code 208009
- K10 – Separation system; Code 2080010
- K11 – Reproductive system; Code 2080011
- K12 – Infections; Code 2080012

For each purchased ZAPPER V-4 device you receive a gift -
Card No. 1 Parasites, 25 separate programs are recorded.

AS A RESULT OF USING THE ZAPPER MACHINE, THE AUTOMATIC!!!!

A COMPLETE CLEANING OF DEAD PARASITES, TRASHES AND TOXINS BEGINS!!!

In most cases, the occupiers could be seen in the "TOILET"!!!

TO ACHIEVE MAXIMUM EFFECTIVE CLEANSING AND STRENGTHENING THE BODY WHEN REMOVING PARASITES, TOXINS AND WASTE FROM THE BODY. IT IS DESIRABLE TO COMBINE WITH THE Santegra GMP CLEANING PROGRAM!!!

Frequently asked questions (FAQ)?

Is it true that the Zapper S5-AUTOMAT bioresonance device treats the above diseases?

There are thousands of diseases and diagnoses, and their causes are parasites, viruses and bacteria.

Modern medicine makes diagnoses and "treats symptoms." The real cure is to "remove the cause"! Zapper V2- AUTOMATICALLY eliminates the causes of diseases, parasites, viruses and bacteria! Then the body heals itself. Once the cause of the disease is eliminated, the symptoms disappear. There is no cause or effect! Logical and simple! Brilliant things are simple!!! Generosity is simplicity!!!

Are there any side effects? NO, but healing crises are possible!!!

What does a treatment crisis mean?

Treatment crises show that cleansing and healing processes are taking place inside your body, resulting from the massive destruction and removal of parasites and toxins from the body!!! Symptoms of a treatment crisis may include feeling unwell, nausea, vomiting, diarrhea, skin rash, fever, weakness, etc.

These possible treatment crises should be viewed positively. All this dirt accumulated inside the body must come out in any case. Otherwise, we will continue to live with this "WEALTH" inside us. This is real treatment. Everything else is an illusion and treatment is a parody!

WARNING! Zapper AUTOMATIC is not recommended for use by people with pacemakers, pregnant or lactating women!

The Vulcan Zapper device allows you to effectively treat both acute and chronic diseases, in the etiology and pathogenesis of which parasites, bacterial and viral infections play an

important role. The device can be used individually at home, as well as in physiotherapy rooms in clinics and hospitals.

The Vulcan Zapper impact device is effective for many diseases:

- Problems caused by single-celled organisms, parasites, pathogenic bacteria, fungi, etc.
- Candida albicans, candidiasis, streptococcus, staphylococcal bacteria, E. coli, papilloma (HPV), chlamydia (Chlamydia trachomatis), Helicobacter pylori and others.
- Helminthic infestations (pinworms, pinworms, trematodes, sucking worms).
- Skin parasites (scabies, lice)
- Fungal infections (nail fungus, thrush, lichen, warts, papillomas, herpes).
- Skin problems (psoriasis, dermatitis, ulcers, acne, eczema, seborrhea, rosacea, etc.).
- Inflammation of the colon and mucous membranes.
- Problems with the gastrointestinal tract (ulcers, gastritis, hepatitis).
- Problems with the genitourinary system (cystitis, pyelonephritis, prostatitis.)
- Pain syndromes (headache and migraine, toothache, neck pain, back pain, joint pain, swelling).
- Problems with the endocrine system (thyroid gland, blood sugar, hormonal imbalance)
- Problems with the musculoskeletal system.
- Problems with the nervous system (insomnia, nervousness, depression).
- Problems with the cardiovascular system.
- Purulent wounds, increased acidity.
- Chronic fatigue syndrome, high and low blood pressure.
- Overweight and underweight.
- Postoperative recovery.
- Autoimmune problems, hair loss, hashimoto's, lupus.
- Immunostimulant: stimulates the immune system, thereby protecting the body from future attacks by parasites and bacteria.
- Noticeably increases vitality.
- Improves memory and brain activity.
- Accelerates metabolism at the cellular level (metabolism), thereby reducing obesity and excess weight.

- Supports and activates the cleansing of the liver, kidneys, bile, digestive system, blood and lymph.
- Does not affect beneficial bacteria (helps and stimulates their development), destroying harmful ones.
- Has a supporting and cleansing effect on all organs and systems of the human body.

Batteries are NOT included due to carrier restrictions!
